

Name _____

Math Write and Draw

Word Problems: length

Read the word problem. Draw a picture to help you solve it. Then write the answer in the blank.
Then make your own problem.

Jared's pencil is 9 centimeters long. Sara's pencil is 21 centimeters long.
How many centimeters longer is Sara's pencil than Jared's?

_____ centimeters

Measure the length of two objects in centimeters. Then write a word problem about the lengths of the objects. Challenge a friend to solve your problem.
